TELEGRAMS
(By Hana Agency)

TUESDAY, MAY 5, 1931.

London, May 3d.—A large meeting
in favour of the movement of the gold
working day to 8 hours was held in
Hyde Park today; everything passed
off quietly.

Paris, May 3d.—M. René Gohier, the
ex-Minister, is elected Senator for the
Department of the Seine.

Berlin, 3d.—The final result of the
Hannover election shows a majority
of nearly 500 votes for the Socialists.

Brussels, May 3d.—The first of the
ministers of Liege and Mons have not
turned up, a strike being declared.

There have been several fights between
the men and the troops entrusted with
the duty of maintaining order. The strike
is rapidly assuming tremendous proportions.

Brussels, May 4th.—Consequent upon
the excitement existing amongst the
striking of Liege, the Government has
been obliged to take stringent measures,
and has declared martial law.

Rome, May 4th.—An American citizen,
who was seriously wounded, has been ar-
rested on the charge of having been one
of the principal instigators of the riots
that took place on Friday last.

Assumption May 4th.—The Executive has
sent a Message to Congress asking that
the issue of the National Bank of Pa-
guay should be increased by
\$1,000,000. There is no alteration in ex-
change, as the measure had for some
time been expected.

CONFESIONS OF GOVERNOR
COSTA.

It is impossible to read Gov. Costa's
message at the opening of the Legisla-
ture of Buenos Aires without a certain
feeling of gratification, for the light that
it throws on many matters of importance
he begins by saying: "We have learned
something, but we have committed great
errors."

In the first place he says that the
port of La Plata has cost \$1,000,000 in
the last year, and that a further sum of
\$1,000,000 is required to finish it. Such a reckless
waste of money is much to be deplored,
since the tonnage (foreign and national)
is only 270,000 tons per annum, and
whereas it would require at least
2,000,000 tons to pay a dividend on so
tremendous an outlay.

The second fault of Governor is the
Hypothecary Bank, of which the unpaid
debts for 1880 and 1890 amounted to
\$28,000,000 currency and \$385,000 gold,
in all 30 millions currency. This does
not include debts payable in 1890, of
which the unpaid balance was \$1,000,000
in 1890, and which, if not paid, would
be due in 1900.

The amount of arrears due in January 1880
is an unknown quantity. Suffice it to
say that in 1890 the debt was \$1,000,000
in 1890, and that in 1900 it was \$1,000,000
in 1900, and that in 1910 it was \$1,000,000
in 1910, and that in 1920 it was \$1,000,000
in 1920, and that in 1930 it was \$1,000,000
in 1930, and that in 1940 it was \$1,000,000

The movement in the Central Produce Market on Saturday and Sunday was as follows:—

Arrivals: 85 wagons with 988,800 kilos of wheat, 161,300 kilos of barley, 1200 kilos of wool.

Left: 23 wagons cleared with 186,000 kilos of hard-wood staves.

Total weight, 1,067,015 kilos.

Gold continued to soar at the second hour, and this in spite of the fact that exchange brokers reported an improvement in the market, there being more drawers and rather a slacker demand.

There was no getting over the stiffness of gold, however, as the market opened at 57.90 and shot up right away to 58.40 at the close of the day.

Stocks showed an improvement in the market, but there was no change. Cables were rather improved, but National Bank Shares, Calcutta and Constructors were all unchanged. The business done being very quiet.

There were some rumors of emission going the rounds, but they seemed to receive little credit, and until Congress opens all conjecture is premature as to what will be done.

The following is a summary of the business effected in stocks and shares to-day at the second ring:—

There was a large crowd round the Montevideo Telephone board this morning, and comment was busy with the great fall in National Bank shares, which are now down to 17.50.

There was a better feeling in the produce market to-day, as it seems that there will be no tax on wheat, the Minister having been convinced that there is at least 40 million tons available for export, without any danger of running short on the stock for consumption.

Exchange brokers reported a better feeling in the market in the evening, there being more drawers and fewer takers. The rates are as follows:—

44, 5.01 francs Paris and 5.02 Antwerp. The fall is considered settled at all events for the present.

An evening colleague says that the service of the Principal Bank of London 12 million gold dollars will have to be suspended, and that instructions have been issued to the bank to suspend the service of the bank.

Some parties attribute the rise in gold at the second hour to the departure of the French market, to be on the whole, especially now that the eve of the departure of these ocean packets is always marked by increased demands for gold. They all leave full of passengers, who exhaust the exchange shops, and the "camibists," of course, then enter the market to replenish their stock.

The Allu King's ship, the *Chorazan*, sailed on Sunday with the following cargo for Dunkirk and Liverpool:—

10,272 bags wheat, 6390 bags linseed, 1600 bags linseed, 2514 bales wool, 100 live hogs, 17 horses, 400 sheep.
